INSTITUTION OF ENGINEERS IN SCOTLAND.

The Engineering review.

THE ENGINEERING REVIEW

EDITED BY

C. EDGAR ALLEN,

Assoc. of the Institution Mech. Engrs., of the Instn. Elect. Engrs., Memb. of the Société Internationale des Electriciens, Paris.

VOLUME XII.

JANUARY TO JUNE,

1905.

LONDON:

THE ENGINEERING REVIEW CO., LTD

LONDON AND TONBRIDGE.

INDEX TO VOLUME XII.

Editorials.

Accumulators and Small Central Stations, 575
British Engineer in Competition with the World, The, 653
British Engineers in America, 655
British Steel Trade Combinations, 476
Copper, The Germicidal Value of, 654
Electricity and Destructor Works, 473
Electricity Stations, Gas-driven, 475
German Commercial Treaties, The, 651
Hollow Columns, The Strength of, 649
Iron and its Alloys, The Mechanical Proportion of at Low Temperatures, 571
Month, The, 920
Post Office, The, and Magazines, 575
Postal Reform, A Much-needed, 479
Thermodynamic Analyses and Definitions, 477
Trade Unions on Lack of Employment, 572
Smoke Prevention Problem, The, 569
Steam Engine Research, 729
Superheated Steam, Value and Production of, 574

Special Articles.

Bridge Design: An Investigation into the Development of the Anatomy of Distinctive Types of Bridges. By J. Kerr Robertson, A.M.Inst.C.E., 494, 584
Castings: On some Conditions Governing the Production of Iron and Steel. By Percy Longmuir, 672, 754, 895
Coal Mines and Underground Spaces: The Ventilation of by Mechanical Means. By Stephen H. Terry, M.I.Mech.E., 737
Coast Erosion: A Study of the Causes of. By Dr. John Switzer Owens, B.A., A.M.Inst.C.E., 593, 664, 746
Derailments, Tank Engine. By A. G. Robins, M.I.Mech.E., 741
Docks: The New Dock and Transit Sheds at the Manchester. By H. L. Hunter, 905
Drainage, House. By Gerard J. G. Jensen, 679, 840
Drives, Electric Motor by Belting. By E. Kilburn Scott, A.M.Inst.C.E., 729
Fly Wheels, The Design of. By A. H. Gibson, B.Sc.Wh.Exh. 488.
Horse-Power, Nominal. By A. T. J. Kersey, A.R.C., Sc.Wh.Ex., A.M.I.Mech.E., 507
Injectors, Efficiency of and their Comparison with Pumps. By R. Keischberger, 889
Liége and its Exhibition. By J. Walter Pearse, Mem.FrenchSoc.C.E., 831
Plate Girders, the Design of. By Brysson Cunningham, B.E., 481
Portland Cements: Testing and Specifying, with Reference to Standard Specification. By J. Kerr Robertson, A.M.Inst.C.E., 915
Steel Car, The, in the United States, 657
Stability of the Aswan Dam (Special), 844
Timber, Modern Seasoning of. By H. E. P. Cottrell, A.M.Inst.C.E., 577
Towns, The Construction of. By Professor L. Cloquet (University of Ghent), 502
Tramway: The London Underground, 815
Welding, Oxy-Hydrogen. By Prof. A. Humboldt Sexton, F.I.C., F.C.S, 809.

Engineering Progress.

Applied Electricity.

Application of Electricity to Industrial Purposes, 775

Boilers and Fuel.

Air in Relation to Boiler Feed, 539
Fire Tube Boilers, The Forcing Capacity of, 540
Power Gas with Special Reference to Suction Plant, 867
Tar Oils for Oils Firing, 538
Wood Gas for Power Purposes and Gas Generators, 856

Construction.

Bridge, The New Swale, 519
Bridge, Concrete over the Neckar, 607
Chester and Holyhead Railway. River Dee Encroachment at Holywell, 684
Cofferdam for raising the U.S. Battleship "Maine," 610
Concrete Steel Beams, Design of, 924
Concrete Steel, Hot Wells of, 517
Docks, Floating, 686
Launch, An Interesting Bridge, 778
Scraper, A Cable Power for Earth Excavation, 604
Theatre, A Fireproof of Armoured Concrete, 948
Tunnel, The Alfreton Second, 766
Tunnel, The Reconstruction of the Moncrieffe, 765
Wind Pressure Involved in the Wreck of a High Bridge, 617

Irrigation.

River Hooghly, The, 623

Machine Tools.

Drilling Machine, A New Radial, 609
Dynamometer, A Twist Drill, 534
Planing Machines, The Design and Construction of American, 611
Planing Machine, New Rotary on round Base, 698
Woodworker, New Mechanical, 513
Woodworking Machine, A Universal, 770

Materials.

Armoured Concrete, Lengthening Capacity of, 701
Elastic Limit, 947
Portland Cement, Materials which retard the Setting of, 600
Portland Cement, Standard Specification for, 775
Timber: Its Strength and How to Test it, 614

Measurements.

Engines, Measuring Angular Velocity of, 933
Pallograph, The, 509
Torsion Meter, A New, 863.
Water, The Measurement of the Flow of, 518
Wind Gauge and Recorder on the Furness Railway, 934
Vacuum, The Measurement of, 537

Mechanical.

Crusher and Pulveriser, The Cléro, 699
Drilling Machines, High Speed Electric, 705
Hoist, Automatic, 791
Hydraulic Experiment, A New, 535
Mixer for Concrete, Description of, 773
Pig Breaking Plant, 854
Riveter, New Pneumatic Boiler, 700
Steam Hammer and Hydraulic Press, A Combined, 772

Index to Vol. XII.

Miscellaneous.

Automobile Compressed Air Carpet Cleaning Plant, 935
Electrometallurgy of Iron and Steel, 542
Fire Engine, 24 h.-p. Chemical, 605
Multiple Effect Evaporation, 688
National Physical Laboratory, Work at the, 780
Protection of Copper against Corrosive Action of Sea Water, 947
Professor Hele-Shaw, F.R.S., LL.D., 544
Tool, Electric Soldering, 603
Utilising Nitrogen from the Air, 949
Valve, An Improved Stop, 790
Wheels, Rolled Steel Car, 767
Water Hammer, 931
Works, New Electrical, 511

Municipal.

Sewage Disposal in Country Districts, 510
Street Watering Car, Electrically Driven, 860

Naval Architecture.

Armoured Cruisers "Kasuga" and "Nisshin" of the Imperial Japanese Navy, 941
Design of the Antarctic Exploration Vessel "Discovery," 937
Shipbuilding for the Navy, 769
Torpedo Boats, Experiments on the Influence of Depths of Water on the Speed of, 621

Prime Movers.

Draught, Combined Forced and Induced, 615
Engine, Blast Furnace Blowing, 705
Engine, A Rotary Compound, 602
Engine, 250 h.-p. Gas, 620
Engines at the Interborough Rapid Transit Power Station, 616
Fuel Economy in Steam Power Plants, 626, 693
Steam Turbines and Turbo-Generators: Mechanical Construction of, 847
Wheel, 50 B.H.-P. Multiple Nozzle Turbine, 521

Railway.

Anchor, A New Rail, 532
Amsterdam-Haarlem Electric Railway, 709
Alternating-Current Railway Systems, A Comparison of, 714
Carriage, Steam Motor on the Northern Railway of France, 532

Railway—*con.*

Fuel Consumption of Locomotives, 636
Inertia of Trains, The, 635
Motor Truck for Heavy Electric Traction, 638
Locomotive, 4-6-0 Type for South America, 764
Locomotive, Rack and Adhesion for the Central South African Railways, 762
Locomotive, High Speed Electric, 870
Locomotive, The Advantages of 4-Cylinder Compound, 531
Locomotive, The High Speed: Prussian State Railway Department, 949
Locomotives: Six-wheeled, coupled, Bogie Express for India, 954
Railway Valve Gear for Locomotives, 634
Railway Vehicles on Suspended Springs: Oscillations of, 953
Signalling, Automatic on the Metropolitan District Railway, 707
Signalling System, New German Engine Cab, 528
Tenders: Punching Structural Steel for, 713
Thermal Storage on Locomotives, 530
Viaduct, The Construction of a Concrete Railway, 529
Wagon: A New Type of "High Capacity" Mineral, 955
Wagons: For L. & S. W. Railway, Ballast Plough and Hopper, 956

Transport.

Petrol Locomotive for Light Railways, 787
Telpherage Plant, A New, 698.

Metallurgical Progress. By Percy Longmuir.

Blast Furnace Practice, 526, 645, 717, 793, 962
Foundry Practice, 527, 645, 718, 795, 879
General Metallurgy, 527, 721, 797, 881
Iron and Manganese, 644
Steels, 523, 641, 794, 877, 966

Electrical Notes. By Andrew Stewart, A.M.I.E.E., 735, 873, 958

Book Reviews. 723—726, 961

Catalogues and Trade Publications, 545, 647, 727, 889

The World's Industrial Engineering Press, 799, 884
